

## 'Educating and Inspiring Year 10

On Wednesday 8th February fifteen of our Year 10 students attended a workshop to encourage them to think about the various options available to them post GCSE, and to experience an Assessment Centre Team game.

The day was opened by Stuart Kerr, our Enterprise Advisor, whose last role was as CEO with Ford Retail Group and previous to this President of Europe for Volvo.

This was followed by a range of presentations and activities relating to post 16 options. At the end of the day Mrs Gilbey talked to the students about their Work Experience Placements in July and the students took part in an Assessment Centre team game. They were observed by two external HR professionals who were very impressed with the engagement and skills of the students.

Comments from students:

- I really enjoyed the day and found it very productive
- Very good, would like to do more of them
