

# Final check

When you think you have made your decision try checking your choices by asking yourself the following questions.

	yes	not sure	no
Will my choices give me the chance to achieve the best grades that I can?			
Have I left my career options open?			
Have I chosen a good balance?			
Can I cope with the workload?			
Can my choices be timetabled by the school?			
If not, have I made a 'plan B' (alternative choices)			
Would my tutor/teachers think my decision is reasonable?			
Would I still choose the subject if I knew the teacher was leaving before I started the course?			
Am I happy with my decisions?			

**Are most of your answers 'yes'? If they are not, do you think you have made the best choices possible? If not with whom could you discuss your decision?**

**Imagine that you are the teacher(s) of the subjects you have chosen, what advice would you give yourself?**
