

Buckinghamshire Healthcare NHS Trust is pleased to be able to offer a work shadow scheme for 2017/18.

The work shadow scheme offers 2 days shadowing a medical or healthcare professional. Students will observe a member of staff in their role to understand how they do their job and what it involves.

To apply students must meet the following criteria:

- Students must be studying AS/A level and considering a career in medicine or a healthcare profession
- Priority is given to students who live or go to school in Buckinghamshire
- Students must be over 17yrs old to take up a placement (Students of 16yrs can apply although they will only be offered a placement once they have turned 17)
- Students must be available when the placements are offered. Due to high demand we will not be able to defer this to suit the student availability unless they are taking exams. We therefore ask students to get permission from their school to attend during term time
- All students must attend an induction. Details of induction dates in November 2017 are included in the application form.

Applications will be available from the 1st October 2017 - 31st October 2017. Please advise students to email voluntary.services@buckshealthcare.nhs.uk

All completed applications must be returned by the 31st October 2015.
