

KPMG Apprenticeship Schemes are a great place for students to start their career.

### **Why does a firm like KPMG recruit apprentices?**

Quite simply, because they are our future. Research shows that in classrooms across the UK more talented students, like yours, are considering starting a career straight after their A-Levels or Scottish Highers, rather than following the traditional university route. We think that your students have just as much potential to succeed at KPMG as our graduate trainees - our entry-routes reflect this belief.

KPMG's Apprenticeship Programmes offer plenty of support for your students at every step of the application process too - from making that initial decision to knowing what to bring along on the first day. As well as your students having their tuition paid for, they'll also earn while they learn.

### **Which areas can your students work in as a KPMG Apprentice?**

There are several KPMG Apprenticeship Programmes available to your students which cover different areas of the business, all offering a refreshing alternative to the traditional university experience. There's loads of support available for your students at every step of the application process too - from making that initial decision to knowing what to bring along on the first day. As well as your students having their tuition paid for, they'll also earn while they learn.

**KPMG Discovery** is for Year 12 students looking to gain work experience. This two, three or five-day (depending on office location) programme will give them useful industry knowledge, career opportunities and the chance to develop the skills they'll need to apply for a role with us.

**KPMG360** gives students the chance to join KPMG and work with some of the best and brightest in the business world. Importantly, it includes a foundation year that's specifically designed so they can experience all areas of the business before they go on to choose an area of specialisation and gain a professional qualification.

**KPMG360 Digital** is a new four-year apprenticeship programme that combines academic study with practical work experience. At the same time, they'll also study for a BSc degree in Digital and Technology Solutions with our training provider, BPP University.

**KPMG360 Business Services** is a two-year apprenticeship programme. As a new apprentice, your student will be fully supported throughout the programme with guidance from KPMG teams and gain a professional qualification.

If you've got any ambitious, bright students who might be interested in a KPMG Apprenticeship programme, then you or your students, can find out more and apply here by visiting our [careers website](#).

Our very best regards,

KPMG Student Recruitment Team
