Basic Key Information for Apprentices:

- We have 40 technology apprenticeship opportunities starting in Jan 2018 in various location and roles across the UK.
- We have four different apprenticeship programme opportunities as either a Network Engineer (Newbury, Leeds, Bracknell and Birmingham), Data Analyst (Newbury and London), Cyber Security (Brentford) or Software Developer (Newbury and London) in various areas of our Group Technology business.
- These are all two-year level 4 apprenticeships resulting in a foundational degree level type qualification (equivalent to first year of uni) in one of the four disciplines
- Starting Salary for all is £21,500
- Individual links to each application opportunity is here:
