

This year we are arranging for the first time a similar event at Wexham Park Hospital called a “Taste of Wexham” which will take place on the **23rd November**.

The event is only for students aged 16-18 who are interested in medical careers within the NHS such as doctors, consultants, surgeons, nurses midwives etc.

The students will need to arrive from 4.15 and go direct the **PGMC (Post Graduate Medical Centre at Wexham Park Hospital)**.

We will have a buffet with refreshments on arrival for the students.

The students will go into the lecture theatre at 5.00 and the evening will end around 8.00pm.

It is a very interactive event, and the Frimley Park event always received very positive feedback.

We only have 60 places available.

If you have any questions please do not hesitate to contact me.
