

# Beauty Therapy NVQ Level 2

I knew from a young age that Beauty Therapy was a passion of mine and wanted to take it further as my career path and finding the right training and college that could offer this to me was essential. After research and recommendations from people in the industry I came across the Karma Academy at The Chalfonts Community College where I have been studying now for 2 years, the education and training that I have received has been invaluable; it has enabled me to get to a high standard and have been offered a job at a prestigious local salon. The Academy offers excellent training and career advice plus staff are very supportive; it has been a pleasure to be a student at the Karma Academy.
