Work Experience

Work Experience

We are reaching out to ask for your support in helping our Year 10 and Year 12 students secure valuable work experience placements.

Work experience is a vital part of a young person's development. It gives students the opportunity to explore potential career paths, build confidence, develop workplace skills, and gain a real understanding of what different jobs involve. These experiences can be truly transformative, helping students make informed decisions about their futures.

However, finding suitable placements can be challenging. This is where we hope you might be able to help.

If you, your workplace, or someone you know could offer a student a short-term work experience placement, we would be incredibly grateful to hear from you. Opportunities in any field—whether hands-on, office-based, creative, technical, or service-oriented—are all valuable and appreciated.

By offering a placement, you are not only supporting an individual student, but also helping to build their confidence, aspirations, and future prospects.

If you are able to help, or would like more information, please do get in touch with us. We would be happy to discuss what is involved and answer any questions.

Thank you for your continued support of our students.

Apprenticeships Information

Apprenticeship Levels Explained

Apprenticeship levels in the UK (Levels 2-7) define the qualification depth, ranging from GCSE equivalent to master's degrees, requiring 1-6 years to complete. Key types include Intermediate (Level 2), Advanced (Level 3), Higher (Levels 4-5), and Degree (Levels 6-7), allowing for progression from entry-level to professional expertise while earning a wage.

Apprenticeship Level Comparison Table

Level	Name	Equivalent	Duration	Suitable For
2	Intermediate	GCSE	12-18 months	Beginners, career starters
3	Advanced	A-Levels	18-24 months	School leavers, early career
4	Higher	1st year of university	18-30 months	Technicians, specialists
5	Higher	Foundation Degree / HND	2-3 years	Supervisors, specialists
6	Degree	Bachelor's Degree	3-4 years	Professional-level roles
7	Degree (Master's)	Master's Degree	2-5 years	Senior leadership, regulated careers

A - ACCOUNTANCY & FINANCE

Accounting and finance: more than one route

Accountancy isn't one-size-fits-all. It offers a wide range of roles, progression opportunities, and ways to build a career over time.

We support students who are:

- thinking about an apprenticeship
- considering university, including a BSc route linked to ACCA
- looking for a more gradual way to build confidence and experience before taking their next step

Our pathway video may be helpful for students exploring their options:

Training

Pilot Careers Preparation Opportunity

The programme has been developed to help students understand the realities of modern aviation careers, while reinforcing key concepts from GCSE and A-Level Maths and Physics through practical aviation applications. Students explore topics including:

- Principles of Flight
- Meteorology and Weather Systems
- Aircraft Performance
- Navigation and Flight Planning
- Human Factors and Decision Making
- Airline Recruitment Processes
- Aptitude Testing and Interview Preparation

Pilot Careers Preparation Opportunity: www.theaviationguy.co.uk

With the introduction of fully funded airline pilot training programmes such as the British Airways Speedbird Academy and Jet2FlightPath, aviation has become more accessible than ever before. However, these schemes attract many thousands of applicants each year for a limited number of places, making early preparation increasingly important for students considering aviation pathways.

Alongside technical aviation knowledge, the programme helps students develop the communication, teamwork, problem-solving and professional skills that are increasingly assessed during modern airline recruitment processes.

13 expert led live online session delivered around current studies, starts 6pm on 8th September 2026.
Open to GCSE & A Level students
