

Andy Wright
Chair of Governors

Andy is currently Chair of Governors and has one child currently attending the College.

Andy and his family have lived in South Bucks since 1995 and he fills his day as a Project/Programme Manager delivering technology orientated and business change projects and programmes mainly in IT and telecommunication sectors. Following university in London studying Computing science, Andy worked in the City of London and Sydney, Australia before returning to the UK. He enjoys local team sports and is a keen scuba diver when time permits.

Steve Smart
Member Governor

Before becoming a Governor in 2014, I ran the School's PTA for 3 years. Outside school, I run my own business helping people get refused insurance claims paid and I am also the Non-Executive Chairman of Lancashire Insurance UK. I trained as a solicitor with the international law firm, Dentons and was the Legal Director in the UK for the insurer AIG for 10 years. I have served on a number of legal and regulatory bodies including the Bank of England's Financial Markets Law Committee, where I served as a Committee member under the former Lord Chief Justice, Lord Wolf.

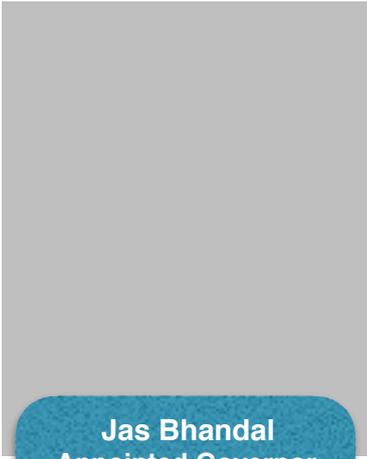

Debbie Dalston
Parent Governor

I am a parent of two sons at the Community College and feel passionately about education and the welfare of children. I have a sound understanding of safeguarding and child protection from my work in schools and the NSPCC. I have worked tirelessly for the last 8 years for various PTA's raising funds, providing resources and lifelong memories. My aspiration for the students at CCC is that they leave the school having achieved their full potential academically but are also well-rounded individuals able to contribute to their own community and society as a whole. I want to ensure that CCC goes from strength to strength in delivering high quality teaching that is not only academically brilliant but is also supportive and nurturing in a safe happy environment.

I have twin girls, both studying at Chalfonts Community College. I am the SEN Governor and serve on the Safe Learning for All committee.

I studied Applied Chemistry (Masters) at university and joined a government agency testing pesticides in food. I spent four years there and at the same time, studied further in information systems before joining a management consulting firm specialising in HR. With over 20 years of experience I have worked with businesses nationally and internationally on a wide range of issues including business strategy, organisation design and leadership development.

Jas Bhandal
Appointed Governor

As a governor, I am committed to helping the growth and development of CCC and help all our students to achieve their full potential both academically and in other fields.

I have been a teacher at the Chalfonts Community College for 7 years having taught at The Beaconsfield School prior to this. In my time at the Chalfonts I have taught PE and Maths, whilst also having had the responsibility of acting as a head of year. I currently run the BTEC qualification for the PE department and I oversee the running of the BTEC qualification within the school.

I have been a governor since April 2016 and chose to become involved at this time in order to ensure that the views/interests of pupils and teachers are adequately represented on the Governing panel. I believe that the time I have spent at the school and my involvement in a wide range of areas within the school gives me adequate qualification to do this.

Duncan Fawcett
Staff Governor

I was Vice Principal at the school from 1990 until retirement in 2013 when I relinquished responsibility for Student Support; Safeguarding; Admissions; Pupil Premium and Timetabling. I maintained my links with the school by helping out with Geography and History trips as well as training staff in Timetabling.

I was delighted to accept the invitation of becoming a governor and hope that my experience in education can help the school on its journey of continuous improvement.

Outside of education my interests lie in sport, especially rugby and I am the chairman of my local rugby club. I have enjoyed meeting many former students in local rugby matches.

Doug Humphries
Appointed Governor

Steve Leybourne
Staff Governor

I started my teaching career in the early eighties in north London. In 1984 I left George Orwell school (a date that is easily remembered!) to pursue a career in advertising. I started my own advertising agency Leybourne Brown Maclean in the early nineties and grew the business to employ over 30 people. In 2001 I decided to return to teaching and was appointed to the Senior Leadership Team of a school in Tower Hamlets. Four years later, a move to the South of France beckoned where we realised our ambition to learn a new language and develop a property. Two years later we returned to settle in Buckinghamshire. After a spell with UCAS dealing with London universities, an opportunity arose at the Chalfonts Community College to teach History. I became a governor to support the strategic development of the college, using my commercial and educational experience to benefit students. I am married to Caroline, a school counsellor, and we have four adult children.

Andrew Spear
Parent Governor

I graduated from De Montfort University in Leicester having studied a degree in construction and technology. I then moved into the IT sector and had a lengthy spell heading up the IT organisation for a business unit of a major financial institutions. I then moved to the technology industry where I have spent well over a decade leading global teams within technology businesses as they undertake major change programmes.

I was elected as a parent governor in 2016 and I'm passionate about technology and the impact of the digital economy in general. I am keen to utilise my professional experience to ensure the students at CCC are equipped to cope with the challenges of the modern workplace. The world is changing at a speed that's never been seen before and therefore it's critical our children are ready for that challenge when they leave school.

Julia Mills
Parent Governor

I've lived in Chalfont St Peter for 20 years. I am passionate about children's education particularly with the education in Bucks being slightly divisive. I believe strongly that every child should have an equal opportunity wherever they continue their education post primary school.

My career in Financial Services saw me working for top blue chip companies where I thrived dealing with Pensions and Investments. My career included training and at one point I was an examiner for the compulsory financial services examination. (FPC)

Post maternity my career has been in sports and management of children and youth schemes, working with primary and secondary schools. Previous voluntary work includes being a Samaritan, a prison visitor, various mentoring roles and PTA Chair.

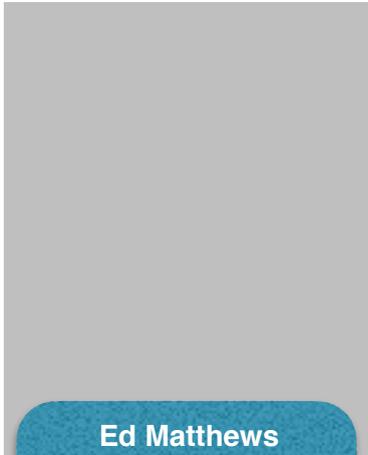

Sharon Kirby
Member Governor

I am a parent of 2 sons at CCC and became a governor in early 2018. My education was via a local Secondary school where I left at 16 to pursue a career in Advertising in local press. 30+ years later I have been very fortunate to manage teams and magazines/newspapers all over the world.

The sector of education arrived firmly in my world in 2010 when I was running a suite of London magazines and launched a national education show. My most recent role is running the UK sales team for tes global, formerly the times education supplement. A business with 110 years history in education that enables me to interact with education specialists, SLT's and advisors on a daily basis.

I hope to share that experience with CCC to support the team in their vision. I am passionate about children being enabled to leave school empowered with the opportunities on offer to them.

My spare time is taken up with supporting my 2 boys from the side-lines in their sport of choice football and where possible relaxing and cooking.

Ed Matthews
Parent Governor

Education has always been very important to me. I want to be able to share my knowledge and experiences to help improve the future for our children. I want the best opportunities for every student so they can each achieve their full potential.

I have two daughters currently at the College, enjoying the wide range of subjects and options available to them, including the sporting teams and activities.

I'm currently the treasurer for the school PTA, helping to plan and coordinate events to raise money to improve the school and opportunities for the students.

I am a Biostatistician working in the pharmaceutical industry, planning, collecting and analysing clinical trial data. I am head of a global department of 150 statisticians and programmers, representing and advising pharmaceutical companies who are developing new medicines to treat diseases including cancer, asthma, blood disorders, influenza, diabetes and many others. My role includes statistical business operations covering departmental finances, auditing, standards, and the presentation of medical data analysis results to pharmaceutical companies and the FDA and EMA governing bodies.

Deborah Sweeney
Member Governor

I feel passionately that education is critical for young people. It isn't just about exams. Education should inspire and ignite curiosity, stimulate and excite.

I have a son in year 10 and have met lots of students from a variety of year groups in the college. They're all great kids, and every one of them deserves the best possible college experience. My ambition is to quicken the college journey from, 'Good and Improving', to 'Outstanding'.

In my professional life I have some direct experience in education having lectured in Psychology for 2 years at Bradford University. During my 20 years at Royal Mail I have held management and leadership roles across a range of disciplines including marketing, project management, team management and leadership. My current role, building commercial relationships with third parties, has honed my listening, questioning and negotiating skills.

My background has given me a holistic, pragmatic and goal-orientated way of thinking and I have the energy and enthusiasm to dedicate to the service of the college.

Roy Page
Vice Chair of Governors

Roy is the recently retired Head of the Royal Grammar School in High Wycombe and a National Leader of Education. He began his career as a Maths teacher at RGS in 1972, taking on a number of senior leadership roles before becoming Head in 2006.

Roy's vast knowledge of the education system and his invaluable experience is used to great effect in his roles as Vice Chair of Governors, as well as Chair of 'Quality for Learning' committee, which is responsible for monitoring the effectiveness of teaching and learning and evaluating outcomes.

Tom Gibney
Member Governor

After studying economics to post-graduate level, Tom began a career as a Credit Analyst and now leads the European Corporate Credit Research team at Bank of America Merrill Lynch.

Tom has joined the Governing Body's Resources for Learning Committee using his analytical and financial skills to support budget planning and management.
